

Mfg. of : Waxes, Oils, Petrochemicals

Chandri Wax Specialities Pvt. Ltd.

(Formerly known as Chandri Paper and Allied Products Pvt. Ltd.)

CIN No. : U21010MH1981PTC024447

PRODUCT DATA SHEET

PRODUCT CATEGORY: - CHANDROL MICRO WAXES

PRODUCT NAME: - Micro fin – 63

Description :

Products made from Natural or Synthetic rubbers exposed to natural sunlight when used , Chandrol Micro wax helps create a thin film of wax reducing the damage caused to the product by harmful UV rays and Ozone Penetration. Chandrol Micro wax Micro fin -63 is specifically designed to cater to Conveyor belting industry where conveyor belts are used for mining , transportation and uses where exposure to sunlight and other harsh weather conditions are high , these waxes are designed to migrate efficiently over to the surface without much centrifugal force and at operating temperatures which are appropriate for conveyor belt industry. These waxes are also designed keeping in mind the high abrasion of the belts due to regular interaction with material transported.

CHANDROL Micro fin - 63

These micro waxes are used mainly for the rubber compounding for products which are often exposed to atmosphere and sunlight , by adding Chandrol Micro fin - 63 we the shelf life of the product increases reducing the time it takes to develop cracks due to harmful UV rays penetration .

Application

Protecting of Natural rubber from sunlight and anti ozone properties along with effective lubrication during mixing at the factory , Ideal for Natural and Synthetic rubber uses for HOSES , CONVEYOR BELTS AND TYRE TUBES

Benefits.

Easy Dispersion
Even and timely Migration UV
Protection
Ozone Protection

CHANDROL MICRO FIN - 63

Sr. no.	Characteristics	ASTM METHOD	SPECIFICATION		Unit	Result Typical	Remark
			Min	Max			
1	Appearance	Visual	Light Yellow			Light Yellow colour Solid Wax	OK
2	Color on melting	D-1500		1.0		1.0	OK
3	Melting Point	ASTM D 87	62	75	D.C	62.5	OK
4	Congeaing Point	D-938				56	OK
5	Flash Point(COC)	D-92				235	OK
