

Mfg. of : Waxes, Oils, Petrochemicals

Chandri Wax Specialities Pvt. Ltd.

(Formerly known as Chandri Paper and Allied Products Pvt. Ltd.)

CIN No. : U21010MH1981PTC024447

PRODUCT DATA SHEET

POLYETHYLENE WAX AR-1010 F

Description:

Polyethylene wax AR-1010 F flakes is a Non-Polar ,low molecular ,high density wax , recommended for use in polyethylene black master batches, Rigid PVC pipe extrusion & EPS.PVC Compound, PVC one pack stabilizer, Ca-Zn Stabilizer, PVC Door, PVC Profile, Hot melt adhesive, Coatings, Road Marking Paint, Carbon Paper, Polishes, Ink industries, Rubber industries, Plastic Master batch etc.

Benefits:

- 1) Carrier Wax for Polyolefin master Batches to improve pigment dispersion.
- 2) Efficient external lubricant for PVC extruded products like pipes, profiles etc. Controls fusion & Imparts smooth glossy finish to end product.

POLYETHYLENE WAX AR-1010 F

Characteristics	Test Method (ASTM)	Specification
Appearance	Visual	White Flakes
Colour	Visual	White/off white
Melting Point, 0°C	ASTM D3418	108±2°C
Needle Penetration Point@ 25°C	ASTMD1321-04	4- 10 DMM
Brookfield Viscosity@140°Ccps	ASTMD3236	Up to 100
Flash Point –Deg.C	ASTM092	190±10°C
